

DECLARATION OF COMPLIANCE TO ROHS REGULATION 2011/65/UE AND 2015/863/UE

With reference to Directive 2011/65 / EU on the limitation of the use of certain dangerous substances in electrical and electronic equipment (RoHS), reworking of the previous Directive 2002/95 / EC and with reference to Directive 2015/863 / EU it is declared that :

- The products supplied by our company meet the requirements of Directive 2011/65 / EU (RoHS) and Directive 2015/863 / EU, indicated in *Table 1*.

It should be noted that products made for third parties comply with the Customer's design which is responsible for what is prescribed therein.

On the basis of what has been declared, our company maintains the necessary actions to guarantee the continuity of the supply chain specifically:

- the updating of the necessary information in reference to the evolution of the RoHS Directive;
- the search for alternative suppliers with the aim of guaranteeing continuity of supply;
- research and development of alternative processes and substances in order to guarantee customers the continuity, quality and performance of the products supplied.

Table 1

Substances with restrictions on use and values of the maximum concentrations tolerated by weight in homogeneous materials	
Lead and its compounds	0,1% by weight on the homogeneous material *
Mercury and its compounds	0,1% by weight on the homogeneous material *
Cadmium and its compounds	0,01% by weight on the homogeneous material *
Hexavalent chromium and its compounds	0,1% by weight on the homogeneous material *
Polybrominated Biphenyls (PBB)	0,1% by weight on the homogeneous material *
Polybrominated diphenyl ethers (PBDE)	0,1% by weight on the homogeneous material *
Bis (2-ethylhexyl) phthalate (DEHP)	0,1% by weight on the homogeneous material *
Benzyl butyl phthalate (BBP)	0,1% by weight on the homogeneous material *
Dibutylphthalate (DBP)	0,1% by weight on the homogeneous material *
Diisobutyl phthalate (DIBP) (DIBP)	0,1% by weight on the homogeneous material *

* *by homogeneous material means a material of uniform composition or a material consisting of the combination of multiple materials that cannot be divided or separated into different materials by mechanical actions such as unscrewing, cutting, crushing, grinding and abrasive processes (as defined article 3, point 20 of directive 2011/65 / EU).*
